

INSTALLATION INSTRUCTIONS

REGAL AMICO FLATWALL – 14” Unit (M/N: FW14FL-GEN-P)

Notes:

1. Medical gas pipes will terminate inside the flatwall, approximately 3" below finish unit.
2. Building wall should be cut out at least $1/4''$ bigger (all around the flatwall) than the size of the flatwall (please see fig.A).
3. For electrical devices Amico will provide extended conduit and wires (approx. 3 feet from finish unit) for connections to the main sources.
